DETAILED ACTION

This office action is in response to the amendment and remarks filed 5/15/06. The examiner has approved the drawings filed on 5/15/06.

Allowable Subject Matter

1. Claims 1-20 are allowed in view of applicant's amendment to the claims.

With respect to claim 1, the following is an examiner's statement of reasons for allowance: the prior art of record neither discloses nor makes obvious the combination set forth in the independent claims, and especially does not show "*the common annular outlet passage having a curved annular transitional surface extending smoothly to a radial and annular surface substantially perpendicular relative to a central axis of the fuel nozzle head*", in combination with the other claim limitations.

With respect to claim 12, the following is an examiner's statement of reasons for allowance: the prior art of record neither discloses nor makes obvious the combination set forth in the independent claims, and especially does not show "*the common annular outlet passage having a substantially radial and annular surface relative to a central axis of the fuel nozzle head for directing a first portion of a mixing air flow substantially perpendicularly towards a fuel flow exiting the fuel discharging orifice*", in combination with the other claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
